

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2018

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

LAKELAND FINANCIAL CORPORATION

(Exact name of registrant as specified in its charter)

Indiana
(State or Other Jurisdiction
of Incorporation or Organization)

0-11487
(Commission File Number)

35-1559596
(IRS Employer
Identification No.)

202 East Center Street, P.O. Box 1387, Warsaw, Indiana 46581-1387
(Address of Principal Executive Offices)(Zip Code)

(574) 267-6144
(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated filer
Smaller reporting company Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Number of shares of common stock outstanding at October 31, 2018: 25,301,732

The accompanying notes are an integral part of these consolidated financial statements.

NOTE 1. BASIS OF PRESENTATION

This report is filed for Lakeland Financial Corporation (the "Company"), which has two wholly owned subsidiaries, Lake City Bank (the "Bank") and LCB Risk Management, a captive insurance company. Also included in this report is the Bank's wholly owned subsidiary, LCB Investments II, Inc. ("LCB Investments"), which manages the Bank's investment portfolio. LCB Investments owns LCB Funding, Inc. ("LCB Funding"), a real estate investment trust. All significant inter-company balances and transactions have been eliminated in consolidation.

The unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles ("GAAP") for interim financial information and with the instructions for Form 10-Q. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements and are unaudited. In the opinion of management, all adjustments (all of which are normal and recurring in nature) considered necessary for a fair presentation have been included. Operating results for the three-month and nine-month periods ended September 30, 2018 are not necessarily indicative of the results that may be expected for any subsequent reporting periods, including the year ending December 31, 2018. The Company's 2017 Annual Report on Form 10-K should be read in conjunction with these statements.

Adoption of New Accounting Standards

The Company accounts for revenue in accordance with ASU No. 2014-09, "Revenue from Contracts with Customers" and all the subsequent amendments to the ASU (collectively "ASC 606"), which the Company adopted on January 1, 2018, using the modified retrospective approach. Results for reporting periods beginning after January 1, 2018 are presented under ASC 606, while prior period amounts are not adjusted and continue to be reported under the accounting standards in effect for the prior period. We recorded a net increase to opening retained earnings of \$24,000 as of January 1, 2018 due to the cumulative impact of adopting ASC 606. Revenue is split between net interest income and noninterest income at a ratio of approximately 80% to 20%, respectively. The scope of the guidance explicitly excludes net interest income as well as many other revenues for financial assets and liabilities including loans, leases, securities, and derivatives. The Company's services that fall within ASC 606 are presented in noninterest income and are recognized as revenue as the Company satisfies its obligation to the customer. The majority of the Company's revenue is from the business of banking and the Company's assigned regions have similar economic characteristics, products, services and customers. Accordingly, all of the Company's operations are considered by management to be aggregated in one reportable operating segment.

The income statement impact of adopting ASC 606 for the three- and nine-month periods ended September 30, 2018 is outlined below:

	For the three months ended September 30, 2018			For the nine months ended September 30, 2018		
	As reported	Under legacy GAAP	Impact of ASC 606	As reported	Under legacy GAAP	Impact of ASC 606
Noninterest income						
Loan and service fees	\$2,327	\$2,135	\$192	\$6,925	\$6,349	\$576
Other income	561	623	(62)	1,816	2,006	(190)
Total	\$2,888	\$2,758	\$130	\$8,741	\$8,355	\$386

Diluted earnings per share	0.78	0.78	0	1.50	1.50	0

In January 2016, the Financial Accounting Standards Board (the "FASB") amended existing accounting guidance related to the recognition and measurement of financial assets and financial liabilities. These amendments make targeted improvements to U.S. GAAP as follows: (1) Require equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income. However, an entity may choose to measure equity investments that do not have readily determinable fair values at cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer. (2) Simplify the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment. When a qualitative assessment indicates that impairment exists, an entity is required to measure the investment at fair value. (3) Eliminate the requirement to disclose the fair value of financial instruments measured at amortized cost for entities that are not public business entities. (4) Eliminate the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet. (5) Require public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes. (6) Require an entity to present separately in other comprehensive income the portion of the total change in the fair value of a liability resulting from a change in the instrument-specific credit risk when the entity has elected to measure the liability at fair value in accordance with the fair value option for financial instruments. (7) Require separate presentation of financial assets and financial liabilities by measurement category and form of financial asset (that is, securities or loans and receivables) on the balance sheet or the accompanying notes to the financial statements. (8) Clarify that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in combination with the entity's other deferred tax assets. This guidance was effective beginning January 1, 2018. Adopting this standard resulted in a credit to retained earnings for the reclassification in the amount of \$68,000.

In August 2016, the FASB issued guidance related to the classification of certain cash receipts and cash payments in the statement of cash flow. This standard provides cash flow statement classification guidance for certain transactions including how the predominance principle should be applied when cash receipts and cash payments have aspects of more than one class of cash flows. This guidance was effective beginning January 1, 2018. Adopting this standard did not have a significant impact on the Company's financial condition or results of operations.

In March 2017, the FASB issued ASU No. 2017-07, "Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost." Under the new guidance, employers will present the service cost component of the net periodic benefit cost in the same income statement line item as other employee compensation costs arising from services rendered during the period. In addition, only the service cost component will be eligible for capitalization in assets. Employers will present the other components separately from the line item that includes the service cost. The guidance was effective beginning January 1, 2018. As a result of the applicable plans being frozen April 1, 2000, there was no service cost recognized for the nine-month periods ending September 30, 2018 and 2017. All other components of cost were recorded in other expense under noninterest expenses on the Consolidated Statements of Income for all periods presented. Adopting this standard did not have a significant impact on the Company's financial condition or results of operations.

In February 2018, the FASB issued ASU No. 2018-02, "Income Statement – Reporting Comprehensive Income (Topic 220): Reclassification of Certain Tax Effects from Accumulated Other Comprehensive Income." The ASU required a reclassification from accumulated other comprehensive income to retained earnings for stranded tax effects resulting from the newly enacted federal corporate income tax rate as a result of the Tax Cuts and Jobs Act of 2017. The amount reclassified was the difference between the historical corporate income tax rate and the new 21% federal corporate income tax rate. The new guidance is effective for fiscal years beginning after December 15, 2018, and early adoption is permitted. The Company elected to early adopt the guidance during the first quarter of 2018, and recorded a credit to retained earnings for the reclassification in the amount of \$173,000 during the first quarter.

Newly Issued But Not Yet Effective Accounting Standards

In February 2016, the FASB issued new accounting guidance related to leases. This update, effective for the Company beginning January 1, 2019, will replace existing lease guidance in GAAP and will require lessees to recognize lease assets and lease liabilities on the balance sheet for all leases and disclose key information about leasing arrangements. When implemented, lessees and lessors will be required to recognize and measure leases at the beginning of the earliest period presented using a modified retrospective approach. The Company currently has approximately \$5.6 million of lease obligations that would come on balance sheet as both assets and liabilities upon adoption of this accounting standard.

In June 2016, the FASB issued guidance related to credit losses on financial instruments. This update will change the accounting for credit losses on loans and debt securities. The measurement of expected credit losses is to be based on information about past events, including historical experience, current conditions, and reasonable and supportable forecasts that affect the collectability of the reported amount. For loans, this measurement will take place at the time the financial asset is first added to the balance sheet and periodically thereafter. This differs significantly from the "incurred loss" model required under current GAAP, which delays recognition until it is probable a loss has been incurred. In addition, the guidance will modify the other-than-temporary impairment model for available-for-sale debt securities to require an allowance for credit impairment instead of a direct write-down, which will allow for reversal of credit impairments in future periods. This guidance is effective for public business entities that meet the definition of an SEC filer for fiscal years beginning after December 15, 2019, including interim periods in those fiscal years. The Company has formed a cross-functional committee that has evaluated existing technology and other solutions for calculating losses under this new standard, selected a vendor to validate data currently loaded in the technology solution selected, and reviewed the validation assessment report. The committee is currently evaluating the various methods available for calculating the credit losses, including but not limited to discounted cash flows, migration, and vintage. Management expects to recognize credit losses earlier upon adoption of this accounting standard and the expected credit loss model than it has historically done under the current incurred credit loss model and is evaluating the impact of adopting this new accounting standard on our financial statements.

In January 2017, the FASB issued ASU No. 2017-04 "Intangibles - Goodwill and Other - Simplifying the Test for Goodwill Impairment." These amendments eliminate Step 2 from the goodwill impairment test. The amendments also eliminate the requirements for any reporting unit with a zero or negative carrying amount to perform a qualitative assessment and, if it fails that qualitative test, to perform Step 2 of the goodwill impairment test. An entity still has the option to perform the qualitative assessment for a reporting unit to determine if the quantitative impairment test is necessary. The guidance is effective for annual or any interim goodwill impairment tests in fiscal years beginning after December 15, 2019. Early adoption is permitted for interim or annual goodwill impairment tests performed on testing dates after January 1, 2017. ASU 2017-04 should be adopted on a prospective basis. Management does not expect the adoption of this new accounting standard to have a material impact on our financial statements.

In March 2017, the FASB issued ASU No. 2017-08, "Receivables—Nonrefundable Fees and Other Costs: Premium Amortization on Purchased Callable Debt Securities." This update amends the amortization period for certain purchased callable debt securities held at a premium. FASB is shortening the amortization period for the premium to the earliest call date. Under current GAAP, entities generally amortize the premium as an adjustment of yield over the contractual life of the instrument. Concerns were raised that current GAAP excludes certain callable debt securities from consideration of early repayment of principal even if the holder is certain that the call will be exercised. As a result, upon the exercise of a call on a callable debt security held at a premium, the unamortized premium is recorded as a loss in earnings. There is diversity in practice (1) in the amortization period for premiums of callable debt securities and (2) in how the potential for exercise of a call is factored into current impairment assessments. The amendments in this update become effective for annual periods and interim periods within those annual periods beginning after December 15, 2018. Management is evaluating the impact of adopting the new guidance on our consolidated financial statements on a quarterly basis, and plans to adopt on January 1, 2019. The Company estimates the impact of this standard as of September 30, 2018, would be a reduction to retained earnings of approximately \$940,000, net of tax, to reflect the acceleration of amortization of premiums on debt securities.

In August 2017, the FASB issued ASU 2017-12, "Derivatives and Hedging: Targeted Improvements to Accounting for Hedging Activities". The purpose of this updated guidance is to better align a company's financial reporting for hedging activities with the economic objectives of those activities. ASU 2017-12 is effective for public business entities for fiscal years beginning after December 15, 2018, with early adoption, including adoption in an interim period, permitted. The Company plans to adopt ASU 2017-12 on January 1, 2019. ASU 2017-12 requires a modified retrospective transition method in which the Company will recognize the cumulative effect of the change on the opening balance of each affected component of equity in the statement of financial position as of the date of adoption. While the Company continues to assess all potential impacts of the standard, we currently expect adoption to have an immaterial impact on our consolidated financial statements.

Reclassifications

Certain amounts appearing in the financial statements and notes thereto for prior periods have been reclassified to conform with the current presentation. The reclassifications had no effect on net income or stockholders' equity as previously reported.

NOTE 2. SECURITIES

Information related to the fair value and amortized cost of securities available for sale and the related gross unrealized gains and losses recognized in accumulated other comprehensive income is provided in the tables below.

(dollars in thousands)	Amortized Cost	Gross Unrealized Gain	Gross Unrealized Losses	Fair Value
September 30, 2018				
U.S. Treasury securities	\$993	\$0	\$(20)	\$973
U.S. government sponsored agencies	4,649	0	(189)	4,460
Mortgage-backed securities: residential	327,270	814	(10,069)	318,015
Mortgage-backed securities: commercial	39,050	0	(959)	38,091
State and municipal securities	213,361	584	(4,916)	209,029
Total	<u>\$585,323</u>	<u>\$1,398</u>	<u>\$(16,153)</u>	<u>\$570,568</u>
December 31, 2017				
U.S. Treasury securities	\$992	\$5	\$0	\$997
U.S. government sponsored agencies	5,191	0	(69)	5,122
Mortgage-backed securities: residential	314,650	2,099	(2,975)	313,774
Mortgage-backed securities: commercial	44,208	75	(72)	44,211
State and municipal securities	172,375	2,990	(976)	174,389
Total	<u>\$537,416</u>	<u>\$5,169</u>	<u>\$(4,092)</u>	<u>\$538,493</u>

Information regarding the fair value and amortized cost of available for sale debt securities by maturity as of September 30, 2018 is presented below. Maturity information is based on contractual maturity for all securities other than mortgage-backed securities. Actual maturities of securities may differ from contractual maturities because borrowers may have the right to prepay the obligation without a prepayment penalty.

(dollars in thousands)	Amortized Cost	Fair Value
Due in one year or less	\$2,548	\$2,558
Due after one year through five years	23,823	23,868
Due after five years through ten years	35,378	34,968
Due after ten years	157,254	153,068
	<u>219,003</u>	<u>214,462</u>
Mortgage-backed securities	366,320	356,106
Total debt securities	<u>\$585,323</u>	<u>\$570,568</u>

Securities proceeds, gross gains and gross losses are presented below.

(dollars in thousands)	Nine months ended September 30,	
	2018	2017
Sales of securities available for sale		
Proceeds	\$12,322	\$35,845
Gross gains	21	256
Gross losses	(27)	(204)
Number of securities	22	35

Purchase premiums or discounts are recognized in interest income using the interest method over the terms of the securities or over the estimated lives of mortgage-backed securities. Gains and losses on sales are based on the amortized cost of the security sold and recorded on the trade date.

Securities with carrying values of \$166.9 million and \$171.1 million were pledged as of September 30, 2018 and December 31, 2017, respectively, as collateral for securities sold under agreements to repurchase, borrowings from the Federal Home Loan Bank and for other purposes as permitted or required by law.

Information regarding securities with unrealized losses as of September 30, 2018 and December 31, 2017 is presented below. The tables divide the securities between those with unrealized losses for less than twelve months and those with unrealized losses for twelve months or more.

(dollars in thousands)	Less than 12 months		12 months or more		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
September 30, 2018						
U.S. Treasury	\$973	\$20	\$0	\$0	\$973	\$20
U.S. government sponsored agencies	1,958	58	2,502	131	4,460	189
Mortgage-backed securities: residential	146,933	3,103	145,962	6,966	292,895	10,069
Mortgage-backed securities: commercial	38,091	959	0	0	38,091	959
State and municipal securities	106,622	2,114	50,845	2,802	157,467	4,916
Total temporarily impaired	<u>\$294,577</u>	<u>\$6,254</u>	<u>\$199,309</u>	<u>\$9,899</u>	<u>\$493,886</u>	<u>\$16,153</u>
December 31, 2017						
U.S. government sponsored agencies	\$2,353	\$6	\$2,769	\$63	\$5,122	\$69
Mortgage-backed securities: residential	142,834	1,412	59,024	1,563	201,858	2,975
Mortgage-backed securities: commercial	23,505	72	0	0	23,505	72
State and municipal securities	8,585	47	49,552	929	58,137	976
Total temporarily impaired	<u>\$177,277</u>	<u>\$1,537</u>	<u>\$111,345</u>	<u>\$2,555</u>	<u>\$288,622</u>	<u>\$4,092</u>

The total number of securities with unrealized losses as of September 30, 2018 and December 31, 2017 is presented below.

	Less than 12 months	12 months or more	Total
	September 30, 2018		
U.S. Treasury	1	0	1
U.S. government sponsored agencies	1	1	2
Mortgage-backed securities: residential	56	54	110
Mortgage-backed securities: commercial	9	0	9
State and municipal securities	129	68	197
Total temporarily impaired	<u>196</u>	<u>123</u>	<u>319</u>
December 31, 2017			
U.S. government sponsored agencies	1	1	2
Mortgage-backed securities: residential	46	21	67
Mortgage-backed securities: commercial	5	0	5
State and municipal securities	17	62	79
Total temporarily impaired	<u>69</u>	<u>84</u>	<u>153</u>

The following factors are considered in determining whether or not the impairment of these securities is other-than-temporary. In making this determination, management considers the extent and duration of the unrealized loss, and the financial condition and near-term prospects of the issuer, as well as the underlying fundamentals of the relevant market and the outlook for such market in the near future. Management also assesses whether it intends to sell, or it is more likely than not that it will be required to sell, a security in an unrealized loss position before recovery of its amortized cost basis. If either of the criteria regarding intent or requirement to sell is met, the entire difference between amortized cost and fair value is recognized as impairment through earnings. For debt securities that do not meet the aforementioned criteria, the amount of impairment is split into two components as follows: 1) OTTI related to credit loss, which must be recognized in the income statement and 2) OTTI related to other factors, which is recognized in other comprehensive income. Credit loss is defined as the difference between the present value of the cash flows expected to be collected and the amortized cost basis. As of September 30, 2018 and December 31, 2017, all of the securities in the Company's portfolio were backed by the U.S. government, government agencies, government sponsored entities or were A-rated or better, except for certain non-local or local municipal securities, which are not rated. For the government, government agency, government-sponsored entity and municipal securities, management did not believe that there would be credit losses or that full principal would not be received. Management considers the unrealized losses on these securities to be primarily interest rate driven and does not expect material losses given current market conditions unless the securities are sold. However, at this time management does not have the intent to sell, and it is more likely than not that the Company will not be required to sell these securities before the recovery of their amortized cost basis.

NOTE 3. LOANS

(dollars in thousands)	September 30, 2018		December 31, 2017	
Commercial and industrial loans:				
Working capital lines of credit loans	\$757,004	19.7 %	\$743,609	19.4 %
Non-working capital loans	693,402	18.0	675,072	17.7

Troubled Debt Restructurings:

Troubled debt restructured loans are included in the totals for impaired loans. The Company has allocated \$2.1 million and \$2.3 million of specific reserves to customers whose loan terms have been modified in troubled debt restructurings as of September 30, 2018 and December 31, 2017, respectively. The Company is not committed to lend additional funds to debtors whose loans have been modified in a troubled debt restructuring.

(dollars in thousands)	September 30 2018	December 31 2017
Accruing troubled debt restructured loans	\$3,512	\$2,893
Nonaccrual troubled debt restructured loans	7,313	7,750
Total troubled debt restructured loans	\$10,825	\$10,643

During the three months ending September 30, 2018, two commercial and industrial loans were modified as troubled debt restructurings due to a modification of the repayment terms which delays principal repayment for an extended period of time. These concessions are included in the table below.

Additional concessions were granted to borrowers with previously identified troubled debt restructured loans during the three-month period ended September 30, 2018. The loan to one of the borrowers is for a commercial real estate building where the collateral value and cash flows from the company occupying the building do not support the loan with a recorded investment of \$852,000. The loan to another one of the borrowers is for a vacant commercial real estate building that does not generate cash flow to support the loan with a recorded investment of \$321,000. The other loans are to a borrower for an investment in land for residential development which has not had sales activity to support loans with a recorded investment of \$109,000. These troubled debt restructured loans with additional concessions decreased the allowance by \$7,000 as a result of payments received during the period and resulted in no charge-offs for the three-month period ending September 30, 2018. These concessions are not included in the table below.

The following table presents loans by class modified as new troubled debt restructurings that occurred during the three months ended September 30, 2018:

(dollars in thousands)	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment	Modified Repayment Terms Number of Loans	Extension Period or Range (in months)
Troubled Debt Restructurings					
Commercial and industrial loans:					
Non-working capital loans	2	\$824	\$824	2	0-6
Total	2	\$824	\$824	2	0-6

For the three month period ending September 30, 2018, the troubled debt restructurings described above did not impact the allowance for loan losses and no charge-offs were recorded.

During the nine months ended September 30, 2018, certain loans were modified as troubled debt restructurings. The modified terms of these loans include one or a combination of the following: inadequate compensation for the terms of the restructure or renewal; a modification of the repayment terms which delays principal repayment for some period; or renewal terms offered to borrowers in financial distress where no additional credit enhancements were obtained at the time of renewal. These concessions are included in the table below.

Additional concessions were granted to borrowers with previously identified troubled debt restructured loans during the nine-month period ended September 30, 2018. There were three commercial real estate loans with recorded investments totaling \$1.3 million and three commercial and industrial loans with recorded investments totaling \$1.4 million where the collateral value and/or cash flows do not support those loans. The other three loans are to borrowers for investments in land for residential development which have not had sales activity to support loans with a recorded investments totaling \$593,000. These troubled debt restructured loans with additional concessions increased the allowance by \$255,000 and resulted in no charge-offs for the nine-month period ending September 30, 2018. These concessions are not included in the table below.

The following table presents loans by class modified as new troubled debt restructurings that occurred during the nine months ended September 30, 2018:

(dollars in thousands)	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment	Modified Repayment Terms	
				Number of Loans	Extension Period or Range (in months)
Troubled Debt Restructurings					
Commercial and industrial loans:					
Working capital lines of credit loans	1	\$600	\$600	1	0
Non-working capital loans	4	2,244	2,244	4	0-6
Commercial real estate and multi-family residential loans:					
Construction and land					
development loans	1	824	824	1	12
Owner occupied loans	1	387	387	1	12
Consumer 1-4 family loans:					
Closed end first mortgage loans	1	198	197	1	239
Total	8	\$4,253	\$4,252	8	0-239

For the nine-month period ending September 30, 2018, the commercial real estate and multi-family residential troubled debt restructurings described above decreased the allowance for loan losses by \$196,000, and resulted in charge-offs of \$1.6 million. All other troubled debt restructurings described above had no impact to the allowance and no charge-offs were recorded for the nine month period ending September 30, 2018.

During the three months ended September 30, 2017, certain loans were modified as troubled debt restructurings due to a modification of the repayment terms which delays principal repayment for an extended period of time. These concessions are included in the table below.

Additional concessions were granted to borrowers with previously identified troubled debt restructured loans during the period. The loans to two of the borrowers are for commercial real estate buildings where the collateral value and cash flows from the companies occupying the buildings do not support the loans with recorded investments of \$1.4 million. The loans to three other borrowers are for commercial and industrial non-working capital loans with recorded investments of \$1.8 million. These troubled debt restructured loans with additional concessions decreased the allowance by \$7,000 as a result of payments received during the period and resulted in no charge-offs for the three-month period ending September 30, 2017. These concessions are not included in the table below.

The following table presents loans by class modified as new troubled debt restructurings that occurred during the three months ended September 30, 2017:

(dollars in thousands)	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post- Modification Extension Outstanding Recorded Investment	Modified Repayment Terms	
				Number of Loans	Period or Range (in months)
Troubled Debt Restructurings					
Commercial and industrial loans:					
Working capital lines of credit loans	1	\$ 1,324	\$ 1,324	1	9
Non-working capital loans	2	210	210	2	0-6
Consumer 1-4 family loans:					
Closed end first mortgage loans	1	76	76	1	198
Total	4	\$ 1,610	\$ 1,610	4	0-198

For the three month period ending September 30, 2017, the commercial and industrial troubled debt restructurings described above decreased the allowance for loan losses by \$77,000 and the consumer troubled debt restructuring described above did not impact the allowance. No charge-offs were recorded on the troubled debt restructurings described above for the three-month period ending September 30, 2017.

During the nine months ended September 30, 2017, certain loans were modified as troubled debt restructurings and are reflected in the table presented below. The modified terms of these loans include one or a combination of the following: inadequate compensation for the terms of the restructure or renewal; a modification of the repayment terms which delays principal repayment for some period; or renewal terms offered to borrowers in financial distress where no additional credit enhancements were obtained at the time of renewal. These concessions are included in the table below.

Additional concessions were granted to borrowers with previously identified troubled debt restructured loans during the nine months ended September 30, 2017. Three of the loans are for commercial real estate properties where the collateral value and/or cash flows from the companies occupying the buildings do not support the loans with recorded investments of \$821,000. The other four loans are commercial and industrial non-working capital loans with recorded investments of \$1.7 million. These troubled debt restructured loans with additional concessions increased the allowance by \$80,000 and resulted in no charge-offs for the nine-month period ending September 30, 2017. These concessions are not included in the table below.

The following table presents loans by class modified as new troubled debt restructurings that occurred during the nine months ended September 30, 2017:

(dollars in thousands)	Number of Loans	Pre-Modification Outstanding Recorded Investment	Post-Modification Outstanding Recorded Investment	Modified Repayment Terms	
				Number of Loans	Extension Period or Range (in months)
Troubled Debt Restructurings					
Commercial and industrial loans:					
Working capital lines of credit loans	1	\$1,324	\$1,324	1	9
Non-working capital loans	4	1,922	1,922	4	0-6
Commercial real estate and multi-family residential loans:					
Owner occupied loans	1	486	486	1	6
Consumer 1-4 family loans:					
Closed end first mortgage loans	2	120	122	2	198-350
Total	8	\$3,852	\$3,854	8	0-350

For the nine-month period ended September 30, 2017, the commercial and industrial troubled debt restructurings described above increased the allowance for loan losses by \$583,000, the commercial real estate and multi-family residential loan troubled debt restructuring described above increased the allowance for loan losses by \$36,000, and the consumer troubled debt restructurings described above had no impact on the allowance. No charge-offs resulted from any troubled debt restructurings described above during the nine-month period ended September 30, 2017.

Credit Quality Indicators:

The Company categorizes loans into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information and current economic trends, among other factors. The Company analyzes commercial loans individually by classifying the loans as to credit risk. This analysis is performed on a quarterly basis for Special Mention, Substandard and Doubtful grade loans and annually on Pass grade loans over \$250,000.

The Company uses the following definitions for risk ratings:

Special Mention. Loans classified as Special Mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or of the institution's credit position at some future date.

Substandard. Loans classified as Substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the Company will sustain some loss if the deficiencies are not corrected.

Doubtful. Loans classified as Doubtful have all the weaknesses inherent in those classified as Substandard, with the added characteristics that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Loans not meeting the criteria above that are analyzed individually as part of the above-described process are considered to be Pass rated loans with the exception of consumer troubled debt restructurings which are evaluated and listed with Substandard commercial grade loans and consumer nonaccrual loans which are evaluated individually and listed with Not Rated loans. Loans listed as Not Rated are consumer loans or commercial loans with consumer characteristics included in groups of homogenous loans which are analyzed for credit quality indicators utilizing delinquency status. As of September 30, 2018, and based on the most recent analysis performed, the risk category of loans by class of loans is as follows:

(dollars in thousands)	Pass	Special Mention	Substandard	Doubtful	Not Rated	Total
Commercial and industrial loans:						
Working capital lines of credit loans	\$673,013	\$56,578	\$27,165	\$0	\$359	\$757,115
Non-working capital loans	642,700	22,853	22,376	0	5,302	693,231
Commercial real estate and multi-family residential loans:						
Construction and land development loans	229,848	371	303	0	0	230,522
Owner occupied loans	527,154	22,374	22,108	0	0	571,636
Nonowner occupied loans	517,558	1,865	654	0	0	520,077
Multifamily loans	191,620	223	0	0	0	191,843
Agri-business and agricultural loans:						
Loans secured by farmland	150,769	6,684	1,809	0	0	159,262
Loans for agricultural production	125,769	7,288	1,800	0	0	134,857
Other commercial loans	114,207	0	0	0	4	114,211
Consumer 1-4 family mortgage loans:						
Closed end first mortgage loans	58,166	0	1,949	0	124,740	184,855
Open end and junior lien loans	8,730	0	243	0	178,480	187,453
Residential construction loans	0	0	0	0	15,100	15,100
Other consumer loans	12,211	0	46	0	70,706	82,963
Total	\$3,251,745	\$118,236	\$78,453	\$0	\$394,691	\$3,843,125

As of December 31, 2017, and based on the most recent analysis performed, the risk category of loans by class of loans is as follows:

(dollars in thousands)	Pass	Special Mention	Substandard	Doubtful	Not Rated	Total
Commercial and industrial loans:						
Working capital lines of credit loans	\$688,748	\$33,337	\$21,350	\$0	\$240	\$743,675

Total	\$3,272,841	\$93,228	\$78,518	\$0	\$373,872	\$3,818,459

NOTE 5. FAIR VALUE DISCLOSURES

Fair value is the exchange price that would be received for an asset or paid to transfer a liability (exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. There are three levels of inputs that may be used to measure fair values:

- Level 1** Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.
- Level 2** Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.
- Level 3** Significant unobservable inputs that reflect a company's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

The Company used the following methods and significant assumptions to estimate the fair value of each type of financial instrument:

Securities: Securities available for sale are valued primarily by a third party pricing service. The fair values of securities available for sale are determined on a recurring basis by obtaining quoted prices on nationally recognized securities exchanges (Level 1 inputs) or pricing models which utilize significant observable inputs such as matrix pricing. This is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2 inputs). These models utilize the market approach with standard inputs that include, but are not limited to benchmark yields, reported trades, broker/dealer quotes, issuer spreads, two-sided markets, benchmark securities, bids, offers and reference data. For certain municipal securities that are not rated and observable inputs about the specific issuer are not available, fair values are estimated using observable data from other municipal securities presumed to be similar or other market data on other non-rated municipal securities (Level 3 inputs).

The Company's Finance Department, which is responsible for all accounting and SEC compliance, and the Company's Treasury Department, which is responsible for investment portfolio management and asset/liability modeling, are the two areas that determine the Company's valuation policies and procedures. Both of these areas report directly to the Executive Vice President and Chief Financial Officer of the Company. For assets or liabilities that may be considered for Level 3 fair value measurement on a recurring basis, these two departments and the Executive Vice President and Chief Financial Officer determine the appropriate level of the assets or liabilities under consideration. If there are assets or liabilities that are determined to be Level 3 by this group, the Risk Management Committee of the Company and the Audit Committee of the Board of Directors are made aware of such assets at their next scheduled meeting.

Securities pricing is obtained from a third party pricing service and all security prices are tested annually against prices from another third party provider and reviewed with a market value price tolerance variance that varies by sector: municipal securities +/- 5%, government mbs/cmo +/- 3% and U.S. treasuries +/-1%. If any securities fall outside the tolerance threshold, a determination of materiality is made for the amount over the threshold. Any security that would have a material threshold difference would be further investigated to determine why the variance exists and if any action is needed concerning the security pricing for that individual security. Changes in market value are reviewed monthly in aggregate by security type and any material differences are reviewed to determine why they exist. At least annually, the pricing methodology of the pricing service is received and reviewed to support the fair value levels used by the Company. A detailed pricing evaluation is requested and reviewed on any security determined to be fair valued using unobservable inputs by the pricing service.

Mortgage banking derivatives: The fair value of mortgage banking derivatives are based on observable market data as of the measurement date (Level 2).

Interest rate swap derivatives: Our derivatives are traded in an over-the-counter market where quoted market prices are not always available. Therefore, the fair values of derivatives are determined using quantitative models that utilize multiple market inputs. The inputs will vary based on the type of derivative, but could include interest rates, prices and indices to generate continuous yield or pricing curves, prepayment rates, and volatility factors to value the position. The majority of market inputs are actively quoted and can be validated through external sources, including brokers, market transactions and third-party pricing services. The fair value of interest rate swap derivatives is determined by pricing or valuation models using observable market data as of the measurement date (Level 2).

Impaired loans: Impaired loans with specific allocations of the allowance for loan losses are generally based on the fair value of the underlying collateral if repayment is expected solely from the collateral. Fair value is determined using several methods. Generally, the fair value of real estate is based on appraisals by qualified third party appraisers. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are usually significant and result in a Level 3 classification of the inputs for determining fair value. In addition, the Company's management routinely applies internal discount factors to the value of appraisals used in the fair value evaluation of impaired loans. The deductions to the appraisals take into account changing business factors and market conditions, as well as value impairment in cases where the appraisal date predates a likely change in market conditions. Commercial real estate is generally discounted from its appraised value by 0-50% with the higher discounts applied to real estate that is determined to have a thin trading market or to be specialized collateral. In addition to real estate, the Company's management evaluates other types of collateral as follows: (a) raw and finished inventory is discounted from its cost or book value by 35-65%, depending on the marketability of the goods (b) finished goods are generally discounted by 30-60%, depending on the ease of marketability, cost of transportation or scope of use of the finished good (c) work in process inventory is typically discounted by 50-100%, depending on the length of manufacturing time, types of components used in the completion process, and the breadth of the user base (d) equipment is valued at a percentage of depreciated book value or recent appraised value, if available, and is typically discounted at 30-70% after various considerations including age and condition of the equipment, marketability, breadth of use, and whether the equipment includes unique components or add-ons; and (e) marketable securities are discounted by 10-30%, depending on the type of investment, age of valuation report and general market conditions. This methodology is based on a market approach and typically results in a Level 3 classification of the inputs for determining fair value.

Mortgage servicing rights: As of September 30, 2018, the fair value of the Company's Level 3 servicing assets for residential mortgage loans was \$4.3 million, none of which are currently impaired and therefore are carried at amortized cost. These residential mortgage loans have a weighted average interest rate of 3.88%, a weighted average maturity of 20 years and are secured by homes generally within the Company's market area, which is primarily Northern Indiana. A valuation model is used to estimate fair value by stratifying the portfolios on the basis of certain risk characteristics, including loan type and interest rate. Impairment is estimated based on an income approach. The inputs used include estimates of prepayment speeds, discount rate, cost to service, escrow account earnings, contractual servicing fee income, ancillary income, late fees, and float income. The most significant assumption used to value mortgage servicing rights is prepayment rate. Prepayment rates are estimated based on published industry consensus prepayment rates. The most significant unobservable assumption is the discount rate. At September 30, 2018, the constant prepayment speed (PSA) used was 87 and the discount rate used was 9.4%. At December 31, 2017, the PSA used was 123 and the discount rate used was 9.4%.

Other real estate owned: Nonrecurring adjustments to certain commercial and residential real estate properties classified as other real estate owned are measured at the lower of carrying amount or fair value, less costs to sell. Fair values are generally based on third party appraisals of the property and are reviewed by the Company's internal appraisal officer. Adjustments are routinely made in the appraisal process by the appraisers to adjust for differences between the comparable properties used to determine value. Such adjustments are usually significant and result in a Level 3 classification. In addition, the Company's management may apply discount factors to the appraisals to take into account changing business factors and market conditions, as well as value impairment in cases where the appraisal date predates a likely change in market conditions. In cases where the carrying amount exceeds the fair value, less costs to sell, an impairment loss is recognized.

Real estate mortgage loans held for sale: Real estate mortgage loans held for sale are carried at the lower of cost or fair value, as determined by outstanding commitments, from third party investors, and result in a Level 2 classification.

The table below presents the balances of assets measured at fair value on a recurring basis:

(dollars in thousands)	September 30, 2018			Assets at Fair Value
	Fair Value Measurements Using			
	Level 1	Level 2	Level 3

There were no transfers between Level 1 and Level 2 during the nine months ended September 30, 2018 and there were no transfers between Level 1 and Level 2 during 2017.

The table below presents a reconciliation of all assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the nine months ended September 30, 2018 and 2017:

(dollars in thousands)	State and Municipal Securities	
	2018	2017
Balance of recurring Level 3 assets at January 1	\$ 880	\$ 670
Changes in fair value of securities included in other comprehensive income	(10)	(7)
Principal payments	(365)	(45)
Balance of recurring Level 3 assets at September 30	\$ 505	\$ 618

The state and municipal securities measured at fair value included below are non-rated Indiana municipal revenue bonds and are not actively traded.

Quantitative Information about Level 3 Fair Value Measurements

(dollars in thousands)	Fair Value at 9/30/2018	Valuation Technique	Unobservable Input	Range of Inputs (Average)
State and municipal securities	\$ 505	Price to type, par, call	Discount to benchmark index	0-5% (0.75%)

Quantitative Information about Level 3 Fair Value Measurements

(dollars in thousands)	Fair Value at 12/31/2017	Valuation Technique	Unobservable Input	Range of Inputs (Average)
State and municipal securities	\$ 880	Price to type, par, call	Discount to benchmark index	0-5% (2.03%)

The primary methodology used in the fair value measurement of the Company's state and municipal securities classified as Level 3 is a discount to the AAA municipal benchmark index. Significant increases or (decreases) in this index as well as the degree to which the security differs in ratings, coupon, call and duration will result in a higher or (lower) fair value measurement for those securities that are not callable. For those securities that are continuously callable, a slight premium to par is used.

The table below presents the balances of assets measured at fair value on a nonrecurring basis:

(dollars in thousands)	September 30, 2018			Assets at Fair Value
	Level 1	Level 2	Level 3	
Assets				
Impaired loans:				
Commercial and industrial loans:				
Working capital lines of credit loans	\$ 0	\$ 0	\$ 3,532	\$ 3,532
Non-working capital loans	0	0	3,705	3,705

Total assets	\$ 0	\$ 0	\$ 4,432	\$ 4,432

The following table presents the valuation methodology and unobservable inputs for Level 3 assets measured at fair value on a non-recurring basis at September 30, 2018:

(dollars in thousands)	Fair Value	Valuation Methodology	Unobservable Inputs	Average	Range of Inputs
Impaired loans:					
Commercial and industrial	\$ 7,237	Collateral based measurements	Discount to reflect current market conditions and ultimate collectability	39%	0% - 100%
Impaired loans:					
Commercial real estate	1,814	Collateral based measurements	Discount to reflect current market conditions and ultimate collectability	30%	1% - 51%
Impaired loans:					
Consumer 1-4 family mortgage	487	Collateral based measurements	Discount to reflect current market conditions and ultimate collectability	23%	2% - 64%
Other real estate owned	316	Appraisals	Discount to reflect current market conditions	0%	

The following table presents the valuation methodology and unobservable inputs for Level 3 assets measured at fair value on a non-recurring basis at December 31, 2017:

(dollars in thousands)	Fair Value	Valuation Methodology	Unobservable Inputs	Average	Range of Inputs
Impaired loans:					
Commercial and industrial	\$ 2,627	Collateral based measurements	Discount to reflect current market conditions and ultimate collectability	37%	23% - 100%
Impaired loans:					
Commercial real estate	1,610	Collateral based measurements	Discount to reflect current market conditions and ultimate collectability	33%	2% - 58%
Impaired loans:					
Consumer 1-4 family mortgage	195	Collateral based measurements	Discount to reflect current market conditions and ultimate collectability	17%	

Impaired loans, which are measured for impairment using the fair value of the collateral for collateral dependent loans, had a gross carrying amount of \$15.0 million, with a valuation allowance of \$5.5 million at September 30, 2018, resulting in a net increase in the provision for loan losses of \$8.3 million and \$3.8 million, respectively in the nine months and three months ended September 30, 2018. At September 30, 2017, impaired loans had a gross carrying amount of \$7.8 million, with a valuation allowance of \$2.9 million, resulting in a net reduction in the provision for loan losses of \$200,000 and \$800,000, respectively, in the nine and three months ended September 30, 2017.

The following table contains the estimated fair values and the related carrying values of the Company's financial instruments. Items which are not financial instruments are not included. Due to the adoption of ASU 2016-01 as of January 1, 2018, the fair value as presented below is measured using the exit price notion in the periods after adoption and may not be comparable with prior periods presented as a result of the change in methodology.

NOTE 6. SECURITIES SOLD UNDER AGREEMENTS TO REPURCHASE

Securities sold under agreements to repurchase represent collateralized borrowings with customers located primarily within the Company's service area. These repurchase liabilities are not covered by federal deposit insurance and are secured by securities owned. The Company retains the right to substitute similar type securities and has the right to withdraw all excess collateral applicable to the repurchase liabilities whenever the collateral values are in excess of the related repurchase liabilities. However, as a means of mitigating market risk, the Company maintains excess collateral to cover normal changes in the repurchase liability by monitoring daily usage. The Company maintains control of the securities through the use of third-party safekeeping arrangements.

Securities sold under agreements to repurchase of \$77.4 million and \$70.7 million, which mature on demand, are secured by mortgage-backed securities with a carrying amount of \$102.0 million and \$98.0 million at September 30, 2018 and December 31, 2017, respectively. Additional information concerning recognition of these liabilities is disclosed in Note 8.

NOTE 7. EMPLOYEE BENEFIT PLANS

Components of net periodic benefit cost:

(dollars in thousands)	Three Months Ended September 30,				Nine Months Ended September 30,			
	Pension Benefits		SERP Benefits		Pension Benefits		SERP Benefits	
	2018	2017	2018	2017	2018	2017	2018	2017
Service cost	\$0	\$0	\$0	\$0	\$0	\$0	\$0	\$0
Interest cost	23	26	9	10	70	78	26	30
Expected return on plan assets	(35)	(35)	(15)	(16)	(104)	(107)	(46)	(47)
Recognized net actuarial (gain) loss	49	46	18	20	145	139	55	60
Net pension expense (benefit)	\$37	\$37	\$12	\$14	\$111	\$110	\$35	\$43

The Company previously disclosed in its financial statements for the year ended December 31, 2017 that it expected to contribute \$0 to its pension plan and \$0 to its Supplemental Executive Retirement Plan ("SERP") in 2018. The Company has contributed \$368,200 to its pension plan and \$0 to its SERP as of September 30, 2018. The Company does not expect to make any additional contributions to its pension plan or SERP during the remainder of 2018. As a result of freezing the plan effective April 1, 2000, there is no service cost to record on the pension plan or the SERP for the nine-month periods ending September 30, 2018 and 2017. All other components of cost noted in the table above were recorded in other expense under noninterest expenses on the Consolidated Statements of Income for all periods presented.

NOTE 8. OFFSETTING ASSETS AND LIABILITIES

The following tables summarize gross and net information about financial instruments and derivative instruments that are offset in the statement of financial position or that are subject to an enforceable master netting arrangement at September 30, 2018 and December 31, 2017.

(dollars in thousands)	September 30, 2018					
	Gross Amounts of Recognized	Gross Amounts Offset in the Statement of	Net Amounts of Assets presented in the Statement	Gross Amounts Not Offset in the Statement of Financial Position		Net Amount
	Assets/ Liabilities	Financial Position	of Financial Position	Financial Instruments	Cash Collateral Received	
Assets						
Interest Rate Swap Derivatives	\$4,478	\$0	\$4,478	\$0	\$(2,180)	\$2,298
Total Assets	\$4,478	\$0	\$4,478	\$0	\$(2,180)	\$2,298
Liabilities						
Interest Rate Swap Derivatives	\$4,480	\$0	\$4,480	\$0	\$0	\$4,480
Repurchase Agreements	77,352	0	77,352	(77,352)	0	0
Total Liabilities	\$81,832	\$0	\$81,832	\$(77,352)	\$0	\$4,480

December 31, 2017

(dollars in thousands)	Gross Amounts of Recognized Assets/ Liabilities	Gross Amounts Offset in the Statement of Financial Position	Net Amounts of Assets presented in the Statement of Financial Position	Gross Amounts Not Offset in the Statement of Financial Position		Net Amount
				Financial Instruments	Cash Collateral Received	
Assets						
Interest Rate Swap Derivatives	\$2,441	\$0	\$2,441	\$0	\$0	\$2,441
Total Assets	\$2,441	\$0	\$2,441	\$0	\$0	\$2,441
Liabilities						
Interest Rate Swap Derivatives	\$2,562	\$0	\$2,562	\$0	\$(750)	\$1,812
Repurchase Agreements	70,652	0	70,652	(70,652)	0	0
Total Liabilities	\$73,214	\$0	\$73,214	\$(70,652)	\$(750)	\$1,812

If an event of default occurs causing an early termination of an interest rate swap derivative, any early termination amount payable to one party by the other party may be reduced by set-off against any other amount payable by the one party to the other party. If a default in performance of any obligation of a repurchase agreement occurs, each party will set-off property held in respect of transactions against obligations owing in respect of any other transactions.

NOTE 9. EARNINGS PER SHARE

Basic earnings per common share is net income divided by the weighted average number of common shares outstanding during the period, including shares held in treasury on behalf of participants in the Company's Directors Fee Deferral Plan. Diluted earnings per common share includes the dilutive effect of additional potential common shares issuable under stock options, stock awards and warrants, none of which were antidilutive.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Weighted average shares outstanding for basic earnings per common share	25,301,033	25,193,894	25,284,085	25,176,593
Dilutive effect of stock options, awards and warrants	444,118	462,509	435,608	464,149
Weighted average shares outstanding for diluted earnings per common share	25,745,151	25,656,403	25,719,693	25,640,742
Basic earnings per common share	\$0.81	\$0.63	\$2.33	\$1.82
Diluted earnings per common share	\$0.80	\$0.62	\$2.30	\$1.78

NOTE 10. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The following tables summarize the changes within each classification of accumulated other comprehensive income (loss) net of tax for the nine months ended September 30, 2018 and 2017:

(dollars in thousands)	Unrealized Gains and Losses on Available- for-Sales Securities	Defined Benefit Pension Items	Total
Balance at December 31, 2017	\$784	\$(1,454)	\$(670)
Other comprehensive income before reclassification	(12,519)	0	(12,519)
Amounts reclassified from accumulated other comprehensive income (loss)	6	148	154

Total noninterest income	\$10,433	\$9,497	\$30,005	\$26,547

(1) Not within scope of ASC 606

(2) The Company elected the modified retrospective approach of adoption; therefore, prior period balances are presented under legacy GAAP and may not be comparable to current year presentation. As a result of this new standard, the only revenue streams with changes in reporting in the current periods compared to the prior year comparable periods are loan and service fees and other income.

The following is a description of principal activities from which we generate revenue. Revenues are recognized as the Company satisfies its obligations with our customers, in an amount that reflects the consideration that we expect to receive in exchange for those services.

Wealth advisory fees

The Company provides wealth advisory services to its customers and earns fees from its contracts with trust customers to manage assets for investment and/or to transact on their accounts. These fees are primarily earned over time as the Company provides the contracted monthly, quarterly, or annual services and are generally assessed based on a tiered scale of the market value of assets under management (AUM) at month-end. Fees that are transaction based, including trade execution services, are recognized at the point in time that the transaction is executed. Other related services, such as escrow accounts that are based on a fixed schedule, are recognized when the services are rendered.

Investment brokerage services

The Company provides investment brokerage services through a full service brokerage and investment and advisory firm, Cetera Investment Services LLC ("Cetera"). The Company receives commissions from Cetera on a monthly basis based upon customer activity for the month. The fees are recognized monthly and a receivable is recorded until commissions are generally paid by the 5th business day of the following month. Because the Company (i) acts as an agent in arranging the relationship between the customer and the Cetera and (ii) does not control the services to the customers, investment brokerage service fees are presented net of Cetera's related costs.

Service charges on deposit accounts

The Company earns fees from its deposit customers for transaction-based, account maintenance, and overdraft services. Transaction-based fees, which include services such as ATM use fees, stop payment charges, statement rendering, and ACH fees, are recognized at the time the transaction is executed as that is the point in time the Company fulfills the customer's request. Account maintenance fees, which relate primarily to monthly maintenance, are earned over the course of a month, representing the period over which the Company satisfies the performance obligation. Overdraft fees are recognized at the point in time that the overdraft occurs. Service charges on deposits are withdrawn from the customer's balance.

Interchange income

The Company provides the ability to transact on certain deposit accounts through the use of debit cards by outsourcing the services through third party service providers. Performance obligations are met on a transactional basis and income is recognized monthly based on transaction type and volume. Under the accounting standards in effect in the prior period, revenue was previously recognized net of the third party's costs. Under ASC 606, fees from interchange income related to its customers use of debit cards will be reported gross in loan and service fees under noninterest income. The cost of using third party providers for these interchange services will be reported in data processing fees and supplies under noninterest expense, which has no effect on net income for the period.

Gain on sale of other real estate (OREO) owned financed by seller

On occasion, the Company underwrites a loan to purchase property owned by the Company. Under the accounting standards in effect in the prior period, the gain on the sale of the Company owned property was deferred and recognized over the life of the loan. Under ASC 606, the Company assesses whether the buyer is committed to perform their obligations under the contract and whether collectability of the transaction price is probable. Once these criteria are met, the OREO asset is derecognized and the gain or loss on sale is recorded upon the transfer of control of the property to the buyer. In determining the gain or loss on the sale, the Company adjusts the transaction price and related gain (loss) on sale if a significant financing component is present. As a result of the adoption of ASC 606, the Company reported a net increase of \$24,000 to opening retained earnings as of January 1, 2018.

Debit card incentive rebates

The Company receives incentive rebates based on debit card transaction volume. Performance obligations are met on a transactional basis and income is recognized monthly based on transaction volume. Under the accounting standards in effect in the prior period, revenue was previously recognized in other income under noninterest income. Under ASC 606, these rebates related to debit card transaction volume will be reported as a contra expense in data processing fees and supplies under noninterest expense, which has no effect on net income for the period.

OVERVIEW

Net income in the first nine months of 2018 was \$59.0 million, up 29.2% from \$45.7 million for the comparable period of 2017. Diluted income per common share was \$2.30 in the first nine months of 2018, up 29.2% from \$1.78 in the comparable period of 2017. Annualized return on average total equity was 16.42% in the first nine months of 2018 versus 13.73% in the comparable period of 2017. Annualized return on average total assets was 1.67% in the first nine months of 2018 versus 1.39% in the comparable period of 2017. The average equity to average assets ratio was 10.16% in the first nine months of 2018 versus 10.14% in the comparable period of 2017.

Net income in the third quarter of 2018 was \$20.6 million, up 30.0% from \$15.8 million for the comparable period of 2017. Diluted income per common share was \$0.80 in the third quarter of 2018, up 29.0% from \$0.62 in the comparable period of 2017. Return on average total equity was 16.55% in the third quarter of 2018 versus 13.71% in the comparable period of 2017. Return on average total assets was 1.72% in the third quarter of 2018 versus 1.41% in the comparable period of 2017. The average equity to average assets ratio was 10.38% in the third quarter of 2018 versus 10.26% in the comparable period of 2017.

Total assets were \$4.758 billion as of September 30, 2018 versus \$4.683 billion as of December 31, 2017, an increase of \$74.6 million, or 1.6%. This increase was primarily due to a \$32.1 million increase in securities available for sale as well as a \$23.4 million increase in net loans. The growth in assets was funded by an increase in total borrowings of \$26.7 million as well as an increase in total deposits of \$7.3 million. Total equity increased by \$29.9 million as a result of net income of \$59.0 million offset by paying dividends of \$0.74 per share totaling \$18.7 million and a reduction in accumulated other comprehensive income of \$12.6 million.

CRITICAL ACCOUNTING POLICIES

Certain of the Company's accounting policies are important to the portrayal of the Company's financial condition, since they require management to make difficult, complex or subjective judgments, some of which may relate to matters that are inherently uncertain. Estimates associated with these policies are susceptible to material changes as a result of changes in facts and circumstances. Some of the facts and circumstances which could affect these judgments include changes in interest rates, in the performance of the economy or in the financial condition of borrowers. Management believes that its critical accounting policies include determining the allowance for loan losses and the valuation and other-than-temporary impairment of investment securities.

Allowance for Loan Losses

The Company maintains an allowance for loan losses to provide for probable incurred credit losses. Loan losses are charged against the allowance when management believes that the principal is uncollectable. Subsequent recoveries, if any, are credited to the allowance. Allocations of the allowance are made for specific loans and for pools of similar types of loans, although the entire allowance is available for any loan that, in management's judgment, should be charged against the allowance. A provision for loan losses is taken based on management's ongoing evaluation of the appropriate allowance balance. A formal evaluation of the adequacy of the loan loss allowance is conducted monthly. The ultimate recovery of all loans is susceptible to future market factors beyond the Company's control.

The level of loan loss provision is influenced by growth in the overall loan portfolio, emerging market risk, emerging concentration risk, commercial loan focus and large credit concentration, new industry lending activity, general economic conditions and historical loss analysis. In addition, management gives consideration to changes in the allocation for specific watch list credits in determining the appropriate level of the loan loss provision. Furthermore, management's overall view on credit quality is a factor in the determination of the provision.

The determination of the appropriate allowance is inherently subjective, as it requires significant estimates by management. The Company has an established process to determine the adequacy of the allowance for loan losses that generally includes consideration of the following factors: changes in the nature and volume of the loan portfolio, overall portfolio quality and current economic conditions that may affect the borrowers' ability to repay. Consideration is not limited to these factors although they represent the most commonly cited factors. With respect to specific allocation levels for individual credits, management considers the amounts and timing of expected future cash flows and the current valuation of collateral as the primary measures. Management also considers trends in adversely classified loans based upon an ongoing review of those credits. With respect to pools of similar loans, allocations are assigned based upon historical experience unless the rate of loss is expected to be greater than historical losses as noted below. A detailed analysis is performed on loans that are classified but determined not to be impaired which incorporates different scenarios where the risk that the borrower will be unable or unwilling to repay its debt in full or on time is combined with an estimate of loss in the event the borrower cannot pay to develop non-specific allocations for such loan pools. These allocations may be adjusted based on the other factors cited above. An appropriate level of general allowance for pooled loans is determined after considering the following: application of historical loss percentages, emerging market risk, commercial loan focus and large credit concentration, new industry lending activity and general economic conditions. It is also possible that the following could affect the overall process: social, political, economic and terrorist events or activities. All of these factors are susceptible to change, which may be significant. As a result of this detailed process, the allowance results in two forms of allocations, specific and general. These two components represent the total allowance for loan losses deemed adequate to cover probable losses inherent in the loan portfolio.

Commercial loans are subject to a dual standardized grading process administered by the credit administration function. These grade assignments are performed independent of each other and a consensus is reached by credit administration and the loan review officer. Specific allowances are established in cases where management has identified significant conditions or circumstances related to an individual credit that indicate the loan is impaired. Considerations with respect to specific allocations for these individual credits include, but are not limited to, the following: (a) does the customer's cash flow or net worth appear insufficient to repay the loan; (b) is there adequate collateral to repay the loan; (c) has the loan been criticized in a regulatory examination; (d) is the loan impaired; (e) are there other reasons where the ultimate collectability of the loan is in question; or (f) are there unique loan characteristics that require special monitoring.

Allocations are also applied to categories of loans considered not to be individually impaired, but for which the rate of loss is expected to be consistent with or greater than historical averages. Such allocations are based on past loss experience and information about specific borrower situations and estimated collateral values. In addition, general allocations are made for other pools of loans, including non-classified loans. These general pooled loan allocations are performed for portfolio segments of commercial and industrial, commercial real estate and multi-family, agri-business and agricultural, other commercial, consumer 1-4 family mortgage and other consumer loans, and loans within certain industry categories believed to present unique risk of loss. General allocations of the allowance are primarily made based on a three-year historical average for loan losses for these portfolios, subjectively adjusted for economic factors and portfolio trends.

Due to the imprecise nature of estimating the allowance for loan losses, the Company's allowance for loan losses includes an unallocated component. The unallocated component of the allowance for loan losses incorporates the Company's judgmental determination of inherent losses that may not be fully reflected in other allocations, including factors such as the level of classified credits, economic uncertainties, industry trends impacting specific portfolio segments, broad portfolio quality trends and trends in the composition of the Company's large commercial loan portfolio and related large dollar exposures to individual borrowers.

Valuation and Other-Than-Temporary Impairment of Investment Securities

The fair values of securities available for sale are determined on a recurring basis by obtaining quoted prices on nationally recognized securities exchanges or pricing models, which utilize significant observable inputs such as matrix pricing. This is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities. Different judgments and assumptions used in pricing could result in different estimates of value. The fair value of certain securities is determined using unobservable inputs, primarily observable inputs of similar securities.

At the end of each reporting period, securities held in the investment portfolio are evaluated on an individual security level for other-than-temporary impairment in accordance with current accounting guidance. Impairment is other-than-temporary if the decline in the fair value of the security is below its amortized cost and it is probable that all amounts due according to the contractual terms of a debt security will not be received.

Significant judgments are required in determining impairment, which includes making assumptions regarding the estimated prepayments, loss assumptions and the change in interest rates.

We consider the following factors when determining other-than-temporary impairment for a security or investment:

- the length of time and the extent to which the market value has been less than amortized cost;
- the financial condition and near-term prospects of the issuer;
- the underlying fundamentals of the relevant market and the outlook for such market for the near future; and
- our intent and ability to hold the security for a period of time sufficient to allow for any anticipated recovery in market value.

The assessment of whether a decline exists that is other-than-temporary involves a high degree of subjectivity and judgment and is based on the information available to management at a point in time. If, in management's judgment, other-than-temporary impairment exists, the cost basis of the security will be written down to the computed net present value, and the unrealized loss will be transferred from accumulated other comprehensive loss as an immediate reduction of current earnings (as if the loss had been realized in the period of other-than-temporary impairment).

RESULTS OF OPERATIONS

Overview

Selected income statement information for the three months and nine months ended September 30, 2018 and 2017 is presented in the following table:

(dollars in thousands)	Three Months Ended September 30,		Nine Months Ended September 30,	
	2018	2017	2018	2017
Income Statement Summary:				
Net interest income	\$37,925	\$34,620	\$111,681	\$100,500
Provision for loan losses	1,100	450	6,100	1,150
Noninterest income	10,433	9,497	30,005	26,547
Noninterest expense	22,009	20,269	63,485	59,669
Other Data:

Total Assets	\$4,757,619	\$4,454,236
Less: Goodwill	(4,970)	(4,970)
Plus: Deferred tax assets related to goodwill	1,180	1,860
Tangible Assets	4,753,829	4,451,126
Tangible Common Equity/Tangible Assets	10.41%	10.32%

Net Income

Net income was \$59.0 million in the first nine months of 2018, an increase of \$13.3 million, or 29.2%, versus net income of \$45.7 million in the first nine months of 2017. The growth in net income of \$13.3 million for the first nine months of 2018 as compared to the prior year period resulted primarily from increased net interest income of \$11.2 million and growth in noninterest income of \$3.5 million. These increases were offset by an increase in provision expense of \$5.0 million and increased noninterest expense of \$3.8 million, resulting in an increase to income before income tax expense of \$5.9 million. In addition, net income for the first nine months of 2018 was favorably impacted by the reduced federal corporate income tax rate. Income tax expense for the first nine months of 2018 was \$7.5 million lower than the prior year period. Net interest income increased \$11.2 million, or 11.1%, to \$111.7 million versus \$100.5 million in the first nine months of 2017. Net interest income increased primarily due to a 7.4% increase in average earning assets. An increase of \$221.2 million, or 6.9%, in average commercial loans from the first nine months of 2017 was the primary reason for the increase in average earning assets over the past twelve months, which reflects our continuing strategic focus on commercial lending. In addition, net interest income was favorably impacted during the first nine months of 2018 by expansion in net interest margin from 3.32% for the nine months ended September 30, 2017 to 3.40% for the nine months ended September 30, 2018. The expansion in net interest margin resulted from Federal Reserve Bank increases to the Federal Funds Rate which increased four times from September 30, 2017.

Net income was \$20.6 million in the third quarter of 2018, an increase of \$4.7 million, or 30.0%, versus net income of \$15.8 million in the third quarter of 2017. Net interest income increased \$3.3 million, or 9.6%, to \$37.9 million versus \$34.6 million in the third quarter of 2017. Net interest income increased primarily due to a 6.1% increase in average earning assets, driven by an increase of 5.8% in the commercial loan portfolio. In addition, net interest income increased as a result of the increases in the federal funds rate. The net interest margin was 3.42% in the third quarter of 2018 versus 3.35% in 2017. The higher margin reflected an increase in loan yields, which more than offset an increase in the cost of funds.

Net Interest Income

The following tables set forth consolidated information regarding average balances and rates:

(fully tax equivalent basis, dollars in thousands)	Nine Months Ended September 30,					
	2018			2017

- (1) Tax exempt income was converted to a fully taxable equivalent basis at a 21 percent tax rate for 2018 and a 35 percent tax rate for 2017. The tax equivalent rate for tax exempt loans and tax exempt securities acquired after January 1, 1983 included the Tax Equity and Fiscal Responsibility Act of 1982 ("TEFRA") adjustment applicable to nondeductible interest expenses. Taxable equivalent basis adjustments were \$1.3 million and \$2.3 million in the nine-month periods ended September 30, 2018 and 2017, respectively.
- (2) Loan fees, which are immaterial in relation to total taxable loan interest income for the nine months ended September 30, 2018 and 2017, are included as taxable loan interest income.
- (3) Nonaccrual loans are included in the average balance of taxable loans.

- (1) Tax exempt income was converted to a fully taxable equivalent basis at a 21 percent tax rate for 2018 and a 35 percent tax rate for 2017. The tax equivalent rate for tax exempt loans and tax exempt securities acquired after January 1, 1983 included the TEFRA adjustment applicable to nondeductible interest expenses. Taxable equivalent basis adjustments were \$467,000 and \$813,000 in the three-month periods ended September 30, 2018 and 2017, respectively.
- (2) Loan fees, which are immaterial in relation to total taxable loan interest income for the three months ended September 30, 2018 and 2017, are included as taxable loan interest income.
- (3) Nonaccrual loans are included in the average balance of taxable loans.

Net interest income increased \$11.2 million, or 11.1%, for the nine months ended September 30, 2018 compared with the first nine months of 2017. The increased level of net interest income during the first nine months of 2018 was largely driven by an increase in average earning assets of \$304.6 million, due primarily to loan growth. Average loans outstanding increased \$251.7 million to \$3.823 billion during the nine months ended September 30, 2018 compared to \$3.571 billion during the same period of 2017, with most of the growth being in commercial loans. In addition, there has been an increase in the preference for fixed rate loans with \$148.3 million of fixed rate commercial loan growth compared to \$72.6 million of variable rate commercial loan growth from September 30, 2017 to September 30, 2018. The earning asset growth was funded through deposit growth offset by a decrease in borrowings. Average time deposits increased by \$244.2 million, average interest bearing checking accounts increased by \$91.4 million, average noninterest bearing demand deposits increased by \$69.1 million and average borrowings decreased by \$91.5 million.

The tax equivalent net interest margin was 3.40% for the first nine months of 2018 compared to 3.32% during the first nine months of 2017. The yield on earning assets totaled 4.41% during the nine months ended September 30, 2018 compared to 4.00% in the same period of 2017. Cost of funds (expressed as a percentage of average earning assets) totaled 1.01% during the first nine months of 2018 compared to 0.68% in the same period of 2017. The increase in net interest margin for the first nine months of 2018 as compared to the same period in 2017 resulted from the effect of the Federal Reserve Bank increases to the Federal Funds Rate and the corresponding impact to the prime rate of interest. While the balance sheet remains asset sensitive, there has been a slight decrease in the loan beta with the increased interest from customers in fixed rate loans.

Average earning assets increased by \$255.4 million for the three months ended September 30, 2018 compared with the same period of 2017. Average loans outstanding increased \$220.0 million during the three months ended September 30, 2018 compared with the same period of 2017, with most of the growth being in commercial loans. The earning asset growth was funded through deposit growth offset by a decrease in borrowings. Average interest bearing deposits increased by \$244.0 million, average noninterest bearing demand deposits increased by \$65.1 million and average borrowings decreased by \$69.7 million.

The tax equivalent net interest margin was 3.42% for the third quarter of 2018 compared to 3.35% during the third quarter of 2017. The yield on earning assets totaled 4.53% during the third quarter of 2018 compared to 4.10% in the same period of 2017, while the cost of funds (expressed as a percentage of average earning assets) totaled 1.11% during the third quarter of 2018 compared to 0.75% in the same period of 2017.

Provision for Loan Losses

The Company recorded a provision for loan loss expense of \$6.1 million and \$1.1 million in the nine-month and three-month periods ended September 30, 2018, respectively, compared to a provision of \$1.2 million and \$450,000 during the respective comparable periods of 2017. The primary factors impacting management's decision to increase the provision in the first nine months of 2018 were loan growth and net charge-offs taken during the first quarter of 2018. Net charge-offs in the third quarter of 2018 were \$463,000 versus net recoveries of \$484,000 in the third quarter of 2017 and net recoveries of \$379,000 during the linked second quarter of 2018. Additional factors considered by management included the continued stability in key loan quality metrics, including appropriate reserve coverage of nonperforming loans and stable economic conditions in the Company's markets, and changes in the allocation for specific watch list credits. Management's overall view on current credit quality was also a factor in the determination of the provision for loan losses. The Company's management continues to monitor the adequacy of the provision based on loan levels, asset quality, economic conditions and other factors that may influence the assessment of the collectability of loans.

Noninterest Income

Noninterest income categories for the nine-month and three-month periods ended September 30, 2018 and 2017 are shown in the following tables:

(dollars in thousands)	Nine Months Ended September 30,		Percent Change
	2018	2017	
Wealth advisory fees	\$4,676	\$4,005	16.8%
Investment brokerage fees	1,043	950	9.8
Service charges on deposit accounts	11,542	10,027	15.1
Loan and service fees	6,925	5,850	18.4
Merchant card fee income	1,834	1,696	8.1
Bank owned life insurance	1,177	1,270	(7.3)
Other income	1,816	1,886	(3.7)
Mortgage banking income	998	811	23.1
Net securities gains (losses)	(6)	52	(111.5)
Total noninterest income	<u>\$30,005</u>	<u>\$26,547</u>	13.0%
Noninterest income to total revenue	<u>21.18%</u>	<u>20.90%</u>	

**Three Months Ended
September 30,**

(dollars in thousands)	2018	2017	Percent Change
Wealth advisory fees	\$1,627	\$1,471	10.6%
Investment brokerage fees	376	330	13.9
Service charges on deposit accounts	4,114	3,631	13.3
Loan and service fees	2,327	2,060	13.0
Merchant card fee income	643	588	9.4
Bank owned life insurance	466	397	17.4
Other income	561	718	(21.9)
Mortgage banking income	319	302	5.6
Net securities gains (losses)	0	0	NA
Total noninterest income	<u>\$10,433</u>	<u>\$9,497</u>	<u>9.9%</u>
Noninterest income to total revenue	<u>21.57%</u>	<u>21.53%</u>	

The Company's noninterest income increased \$3.5 million, or 13.0%, to \$30.0 million for the nine months ended September 30, 2018 compared to \$26.5 million in the prior year period. For the third quarter of 2018, the Company's noninterest income increased \$936,000, or 9.9%, to \$10.4 million compared to \$9.5 million for the third quarter of 2017. Noninterest income was positively impacted for both the nine- and three-month periods ended September 30, 2018 by increases in service charges on deposit accounts primarily related to business accounts, loan and service fees, and wealth advisory and brokerage fees due to continued growth of client relationships.

Noninterest Expense

Noninterest expense categories for the nine-month and three-month periods ended September 30, 2018 and 2017 are shown in the following tables:

**Nine Months Ended
September 30,**

(dollars in thousands)	2018	2017	Percent Change
Salaries and employee benefits	\$36,267	\$34,062	6.5%
Net occupancy expense	3,892	3,405	14.3
Equipment costs	3,840	3,413	12.5
Data processing fees and supplies	7,292	6,022	21.1
Corporate and business development	3,070	3,943	(22.1)
FDIC insurance and other regulatory fees	1,282	1,296	(1.1)
Professional fees	2,716	2,717	0.0
Other expense	5,126	4,811	6.5
Total noninterest expense	<u>\$63,485</u>	<u>\$59,669</u>	<u>6.4%</u>

**Three Months Ended
September 30,**

(dollars in thousands)	2018	2017	Percent Change
Salaries and employee benefits	\$12,755	\$11,678	9.2%
Net occupancy expense	1,229	1,131	8.7
Equipment costs	1,316	1,182	11.3
Data processing fees and supplies	2,489	2,032	22.5
Corporate and business development	891	1,245	(28.4)
FDIC insurance and other regulatory fees	412	443	(7.0)
Professional fees	934	962	(2.9)
Other expense	1,983	1,596	24.2
Total noninterest expense	\$22,009	\$20,269	8.6%

The Company's noninterest expense increased \$3.8 million, or 6.4%, to \$63.5 million in the nine months ended September 30, 2018, compared to \$59.7 million in the prior year period. For the third quarter of 2018, the Company's noninterest expense increased by \$1.7 million or 8.6% to \$22.0 million compared to \$20.3 million for the third quarter of 2017. Salaries and employee benefits increased primarily due to an increase to the company's minimum hiring wage, normal merit increases and increased health insurance cost. Data processing fees increased primarily due to the company's continued investment in technology-based solutions. Corporate and business development expense decreased primarily due to a reduction in contributions as well as lower advertising expenses.

The Company's income tax expense decreased \$7.5 million and \$2.9 million, respectively, in the nine-month and three-month periods ended September 30, 2018, compared to the same periods in 2017. The effective tax rate was 18.1% and 18.5%, respectively, in the nine-month and three-month periods ended September 30, 2018, compared to 31.0% and 32.4% for the comparable periods of 2017. The decrease in the effective tax rate in the nine-month and three-month periods ended September 30, 2018 was primarily due to the effects of the Tax Cuts and Jobs Act of 2017, which lowered the Company's federal income tax rate to 21% from 35%, effective January 1, 2018. In addition, through the preparation of the Company's 2017 corporate tax return and the completion of cost segregation studies on new construction projects, the Company was able to recognize a permanent tax savings of approximately \$400,000, which was finalized and recognized during the third quarter of 2018.

FINANCIAL CONDITION

Overview

Total assets of the Company were \$4.758 billion as of September 30, 2018, an increase of \$74.6 million, or 1.6%, when compared to \$4.683 billion as of December 31, 2017. Overall asset growth was primarily driven by a \$32.1 million, or 6.0%, increase in securities available for sale to \$570.6 million at September 30, 2018 from \$538.5 billion at December 31, 2017 and an increase of \$23.4 million, or 0.6%, in net loans to \$3.795 billion at September 30, 2018 from \$3.771 billion at December 31, 2017. Funding for the balance sheet growth came from an increase of \$26.7 million in borrowings as well as a \$7.3 million increase in deposits.

Uses of Funds

Total Cash and Cash Equivalents

Total cash and cash equivalents increased by \$6.1 million, or 3.5%, to \$182.3 million at September 30, 2018, from \$176.2 million at December 31, 2017. The short-term investment component of cash and cash equivalents decreased primarily due to lower interest-bearing balances on deposit with the Federal Reserve Bank of Chicago.

Investment Portfolio

The amortized cost and the fair value of securities as of September 30, 2018 and December 31, 2017 were as follows:

(dollars in thousands)	September 30, 2018		December 31, 2017	
	Amortized Cost	Fair Value	Amortized Cost	Fair Value
U.S. Treasury securities	\$993	\$973	\$992	\$997
U.S. government sponsored agencies	4,649	4,460	5,191	5,122
Mortgage-backed securities: residential	327,270	318,015	314,650	313,774
Mortgage-backed securities: commercial	39,050	38,091	44,208	44,211
State and municipal securities	213,361	209,029	172,375	174,389
Total	<u>\$585,323</u>	<u>\$570,568</u>	<u>\$537,416</u>	<u>\$538,493</u>

At September 30, 2018 and December 31, 2017, there were no holdings of securities of any one issuer, other than the U.S. government, government agencies and government sponsored entities, in an amount greater than 10% of stockholders' equity. Management is aware that, as interest rates rise, the unrealized loss in the investment portfolio will increase. Since the majority of the bonds in the investment portfolio are fixed-rate, with only a few adjustable-rate bonds, the market value of the bonds in the portfolio will decrease as interest rates rise. This is taken into consideration when evaluating the gain or loss of investment securities in the portfolio and the potential for other-than-temporary impairment.

Purchases of securities available for sale totaled \$100.7 million in the first nine months of 2018. The purchases consisted primarily of mortgage-backed securities issued by government sponsored entities and also purchases of state and municipal securities. Paydowns from prepayments and scheduled payments of \$32.1 million were received in the first nine months of 2018, and the amortization of premiums, net of the accretion of discounts, was \$2.5 million. Sales of securities totaled \$12.3 million in the first nine months of 2018. Maturities and calls of securities totaled \$9.9 million in the first nine months of 2018. No other-than-temporary impairment was recognized in the first nine months of 2018.

Purchases of securities available for sale totaled \$114.2 million in the first nine months of 2017. The purchases consisted primarily of agency residential mortgage-backed securities. Paydowns from prepayments and scheduled payments of \$38.6 million were received in the first nine months of 2017, and the amortization of premiums, net of the accretion of discounts, was \$2.3 million. Sales of securities totaled \$35.8 million in the first nine months of 2017. Maturities and calls of securities totaled \$9.6 million in the first nine months of 2017. No other-than-temporary impairment was recognized in the first nine months of 2017.

The investment portfolio is managed by a third-party firm to provide for an appropriate balance between liquidity, credit risk and investment return and to limit the Company's exposure to risk to an acceptable level. The Company does not trade or invest in or sponsor certain unregistered investment companies defined as hedge funds and private equity funds under what is commonly referred to as the "Volcker Rule" of the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Real Estate Mortgage Loans Held-for-Sale

Real estate mortgage loans held-for-sale increased by \$142,000, or 4.2%, to \$3.5 million at September 30, 2018, from \$3.3 million at December 31, 2017. The balance of this asset category is subject to a high degree of variability depending on, among other things, recent mortgage loan rates and the timing of loan sales into the secondary market. The Company generally sells all of the qualifying mortgage loans it originates on the secondary market. Proceeds from sales totaled \$39.4 million in the first nine months of 2018 compared to \$43.6 million in the first nine months of 2017.

Loan Portfolio

The loan portfolio by portfolio segment as of September 30, 2018 and December 31, 2017 is summarized as follows:

(dollars in thousands)	September 30, 2018		December 31, 2017		Current Period Change
Commercial and industrial loans	\$1,450,406	37.7 %	\$1,418,681	37.1 %	\$31,725
Commercial real estate and multi-family residential loans	1,516,425	39.4	1,444,913	37.8	71,512
Agri-business and agricultural loans	294,029	7.7	382,841	10.0	(88,812)
Other commercial loans	114,350	3.0	124,076	3.3	(9,726)
Consumer 1-4 family mortgage loans	386,209	10.0	374,645	9.8	11,564
Other consumer loans	83,203	2.2	74,369	2.0	8,834
Subtotal	<u>3,844,622</u>	<u>100.0 %</u>	<u>3,819,525</u>	<u>100.0 %</u>	<u>25,097</u>
Less: Allowance for loan losses	(48,343)		(47,121)		(1,222)
Net deferred loan fees	(1,497)		(1,066)		(431)
Loans, net	<u>\$3,794,782</u>		<u>\$3,771,338</u>		<u>\$23,444</u>

Total loans, excluding real estate mortgage loans held for sale and deferred fees, increased by \$25.1 million to \$3.845 billion at September 30, 2018 from \$3.820 billion at December 31, 2017. The increase was concentrated in the commercial and commercial real estate categories and reflected the Company's long standing strategic plan that is focused on expanding and growing the commercial lending business throughout our market areas. The increase was partially offset by expected, seasonal loan repayments during the first quarter in our agri-business and agricultural loans. In addition, unanticipated factors affecting loan repayment activity during the year included the sale of client companies and long-term non-bank financing in the agricultural and commercial real estate portfolios.

The following table summarizes the Company's non-performing assets as of September 30, 2018 and December 31, 2017:

(dollars in thousands)	September 30, 2018	December 31, 2017
Nonaccrual loans including nonaccrual troubled debt restructured loans	\$12,337	\$9,401
Loans past due over 90 days and still accruing	0	6
Total nonperforming loans	<u>\$12,337</u>	<u>\$9,407</u>
Other real estate owned	316	40
Repossessions	111	55
Total nonperforming assets	<u>\$12,764</u>	<u>\$9,502</u>
Impaired loans including troubled debt restructurings	\$20,906	\$13,869
Nonperforming loans to total loans	0.32%	0.25%
Nonperforming assets to total assets	0.27%	0.20%
Performing troubled debt restructured loans	\$3,512	\$2,893
Nonperforming troubled debt restructured loans (included in nonaccrual loans)	7,313	7,750
Total troubled debt restructured loans	<u>\$10,825</u>	<u>\$10,643</u>

Total nonperforming assets increased by \$3.3 million, or 34.3%, to \$12.8 million during the nine-month period ended September 30, 2018. The increase in nonperforming assets was primarily due to two commercial relationships being placed in nonaccrual status.

Net charge offs in the quarter were \$463,000 versus net recoveries of \$484,000 in the third quarter of 2017 and net recoveries of \$379,000 during the linked second quarter of 2018.

A loan is impaired when full payment under the original loan terms is not expected. Impairment for smaller loans that are similar in nature and which are not in nonaccrual or troubled debt restructured status, such as residential mortgage, consumer, and credit card loans, is determined based on the class of loans and impairment is determined on an individual loan basis for other loans. If a loan is impaired, a portion of the allowance may be allocated so that the loan is reported, net, at the present value of estimated future cash flows or at the fair value of collateral if repayment is expected solely from the collateral.

Total impaired loans increased by \$7.0 million, or 50.7%, to \$20.9 million at September 30, 2018 from \$13.9 million at December 31, 2017. The increase in the impaired loans category was primarily due to the addition of the three commercial credits, two of the credits were also placed in nonaccrual status.

Loans are charged against the allowance for loan losses when management believes that the principal is uncollectible. Subsequent recoveries, if any, are credited to the allowance. The allowance is an amount that management believes will be adequate to absorb probable incurred credit losses relating to specifically identified loans based on an evaluation of the loans by management, as well as other probable incurred losses inherent in the loan portfolio. The evaluations take into consideration such factors as changes in the nature and volume of the loan portfolio, overall portfolio quality, review of specific problem loans and current economic conditions that may affect the borrower's ability to repay. Management also considers trends in adversely classified loans based upon a monthly review of those credits. An appropriate level of general allowance is determined after considering the following factors: application of historical loss percentages, emerging market risk, commercial loan focus and large credit concentrations, new industry lending activity and current economic conditions. Federal regulations require insured institutions to classify their own assets on a regular basis. The regulations provide for three categories of classified loans: Substandard, Doubtful and Loss. The regulations also contain a Special Mention category. Special Mention applies to loans that do not currently expose an insured institution to a sufficient degree of risk to warrant classification as Substandard, Doubtful or Loss but do possess credit deficiencies or potential weaknesses deserving management's close attention. The Company's policy is to establish a specific allowance for loan losses for any assets where management has identified conditions or circumstances that indicate an asset is impaired. If an asset or portion thereof is classified as a loss, the Company's policy is to either establish specified allowances for loan losses in the amount of 100% of the portion of the asset classified loss or charge-off such amount.

At September 30, 2018, the allowance for loan losses was 1.26% of total loans outstanding, versus 1.23% of total loans outstanding at December 31, 2017. At September 30, 2018, management believed the allowance for loan losses was at a level commensurate with the overall risk exposure of the loan portfolio. However, if economic conditions do not remain stabilized, certain borrowers may experience difficulty and the level of nonperforming loans, charge-offs and delinquencies could rise and require increases in the allowance for loan losses. The process of identifying probable incurred credit losses is a subjective process. Therefore, the Company maintains a general allowance to cover probable credit losses within the entire portfolio. The methodology management uses to determine the adequacy of the loan loss reserve includes the considerations below.

The Company has a relatively high percentage of commercial and commercial real estate loans, most of which are extended to small or medium-sized businesses from a wide variety of industries. Generally, this type of lending has more credit risk than other types of lending because of the size and diversity of the credits. The Company manages this risk by adjusting its pricing to the perceived risk of each individual credit and by diversifying the portfolio by customer, product, industry and market area.

As of September 30, 2018, on the basis of management's review of the loan portfolio, the Company had 96 credits totaling \$196.3 million on the classified loan list versus 95 credits totaling \$171.7 million on December 31, 2017. As of September 30, 2018, the Company had \$118.2 million of assets classified as Special Mention, \$78.1 million classified as Substandard, \$0 classified as Doubtful and \$0 classified as Loss as compared to \$93.2 million, \$78.5 million, \$0 and \$0, respectively, at December 31, 2017.

Allowance estimates are developed by management after taking into account actual loss experience adjusted for current economic conditions. The Company has regular discussions regarding this methodology with regulatory authorities. Allowance estimates are considered a prudent measurement of the risk in the Company's loan portfolio and are applied to individual loans based on loan type. In accordance with current accounting guidance, the allowance is provided for losses that have been incurred as of the balance sheet date and is based on past events and current economic conditions and does not include the effects of expected losses on specific loans or groups of loans that are related to future events or expected changes in economic conditions. For a more thorough discussion of the allowance for loan losses methodology see the Critical Accounting Policies section of this Item 2.

The allowance for loan losses increased 2.6%, or \$1.2 million, from \$47.1 million at December 31, 2017 to \$48.3 million at September 30, 2018. Pooled loan allocations decreased from \$43.9 million at December 31, 2017 to \$42.3 million at September 30, 2018, which was primarily due to management's view of current credit quality and the current economic environment. Impaired loan allocations increased \$2.8 million from \$3.2 million at December 31, 2017 to \$6.0 million at September 30, 2018, which was primarily due to the increase in impaired commercial credits. The unallocated component of the allowance for loan losses was \$3.1 million at September 30, 2018 compared to \$2.7 million at December 31, 2017. While general trends in the overall economy and credit quality were stable, the Company believes that the unallocated component is appropriate given the uncertainty that exists regarding near term economic conditions.

Most of the Company's recent loan growth has been concentrated in the commercial loan portfolio, which can result in overall asset quality being influenced by a small number of credits. Management has historically considered growth and portfolio composition when determining loan loss allocations. Management believes that it is prudent to continue to provide for loan losses in a manner consistent with its historical approach due to the loan growth described above and current economic conditions.

Economic conditions in the Company's markets have generally improved and stabilized, and management is cautiously optimistic that the growth is positively impacting its borrowers. While the growth is not robust, commercial real estate activity and manufacturing growth is occurring. The Company's continued growth strategy promotes diversification among industries as well as continued focus on the enforcement of a strong credit environment and an aggressive position in loan work-out situations. The Company believes that historical industry-specific issues in the Company's markets have improved and continue to be somewhat mitigated by its overall expansion strategy. Nevertheless, the economic environment impacting the Company's entire geographic footprint will continue to present challenges.

Sources of Funds

The average daily deposits and borrowings together with average rates paid on those deposits and borrowings for the nine months ended September 30, 2018 and 2017 are summarized in the following table:

(dollars in thousands)	Nine months ended September 30,			
	2018		2017	
	Balance	Rate	Balance	Rate
Noninterest bearing demand deposits	\$841,797	0.00%	\$772,738	0.00%
Savings and transaction accounts:				
Savings deposits	260,387	0.13	273,428	0.15
Interest bearing demand deposits	1,475,695	1.13	1,384,256	0.67
Time deposits:				
Deposits of \$100,000 or more	1,229,302	1.73	1,009,565	1.24
Other time deposits	263,384	1.45	238,910	1.18
Total deposits	\$4,070,565	1.03%	\$3,678,897	0.68%
FHLB advances and other borrowings	151,161	1.83	242,703	1.28
Total funding sources	\$4,221,726	1.06%	\$3,921,600	0.72%

Deposits and Borrowings

As of September 30, 2018, total deposits increased by \$7.3 million, or 0.2%, from December 31, 2017. Core deposits increased by \$95.3 million to \$3.839 billion as of September 30, 2018 from \$3.744 billion as of December 31, 2017. Total brokered deposits were \$176.9 million at September 30, 2018 compared to \$265.0 million at December 31, 2017 reflecting a \$88.1 million decrease during the first nine months of 2018.

Since December 31, 2017, the change in core deposits was comprised of increases in commercial deposits of \$82.8 million and in retail deposits of \$12.8 million, which were offset by a decrease in public fund deposits of \$297,000. Total public funds deposits, including public funds transaction accounts, were \$1.250 billion at September 30, 2018 and December 31, 2017.

The following table summarizes deposit composition at September 30, 2018 and December 31, 2017:

(dollars in thousands)	September 30, 2018	December 31, 2017	Current Period Change
Retail	\$1,549,085	\$1,536,308	\$12,777
Commercial	1,040,213	957,371	82,842
Public funds	1,249,699	1,249,996	(297)
Core deposits	\$3,838,997	\$3,743,675	\$95,322
Brokered deposits	176,927	264,980	(88,053)
Total deposits	<u>\$4,015,924</u>	<u>\$4,008,655</u>	<u>\$7,269</u>

Total borrowings increased by \$26.7 million, or 14.7%, from December 31, 2017. The increase consisted of \$20.0 million in federal funds purchased, as well as \$6.7 million in securities sold under agreements to repurchase. Federal Home Loan Bank advances were \$80.0 million at September 30, 2018 and at December 31, 2017. The Company utilizes wholesale funding, including brokered deposits and Federal Home Loan Bank advances, to supplement funding of assets, which is primarily loan growth.

Capital

As of September 30, 2018, total stockholders' equity was \$498.5 million, an increase of \$29.9 million, or 6.4%, from \$468.6 million at December 31, 2017. In addition to net income of \$59.0 million, other increases in equity during the first nine months of 2018 included \$4.3 million in stock based compensation expense. Offsetting the increases to stockholders' equity were decreases of \$12.6 million in accumulated other comprehensive income component of equity, which was primarily driven by a net decrease in the fair value of available-for-sale securities, dividends paid in the amount of \$18.7 million and \$2.4 million in stock activity under equity compensation plans.

The impact on equity by other comprehensive income is not included in regulatory capital. The banking regulators have established guidelines for leverage capital requirements, expressed in terms of Tier 1, or core capital, as a percentage of average assets, to measure the soundness of a financial institution. In addition, banking regulators have established risk-based capital guidelines for U.S. banking organizations. The final rules implementing the Basel Committee on Banking Supervision's capital guidelines for U.S. banks became effective for the Company on January 1, 2015, with full compliance with all of the final rule's requirements phased in over a multi-year schedule, to be fully phased-in by January 1, 2019. The final rules include a capital conservation buffer, comprised of common equity Tier 1 capital, which was phased in beginning January 1, 2016 at 0.625% of risk-weighted assets and will increase each subsequent year by an additional 0.625% until reaching its final level of 2.5% on January 1, 2019. The capital conservation buffer was 1.25% as of December 31, 2017 and 1.875% as of September 30, 2018. As of September 30, 2018, the Company's capital levels remained characterized as "well-capitalized" under the new rules.

The actual capital amounts and ratios of the Company and the Bank as of September 30, 2018 and December 31, 2017, are presented in the table below:

(dollars in thousands)	Actual		Minimum Required For Capital Adequacy Purposes		For Capital Adequacy Purposes Plus Capital Conservation Buffer		Minimum Required to Be Well Capitalized Under Prompt Corrective Action Regulations	
	Amount	Ratio	Amount	Ratio	Amount	Ratio	Amount	Ratio
As of September 30, 2018:								
Total Capital (to Risk Weighted Assets)								
Consolidated	\$585,190	14.14%	\$331,170	8.00%	\$408,788	9.875%	N/A	N/A

FORWARD-LOOKING STATEMENTS

This document (including information incorporated by reference) contains, and future oral and written statements of the Company and its management may contain, forward-looking statements, within the meaning of such term in the Private Securities Litigation Reform Act of 1995, with respect to the financial condition, results of operations, plans, objectives, future performance and business of the Company. Forward-looking statements, which may be based upon beliefs, expectations and assumptions of the Company's management and on information currently available to management, are generally identifiable by the use of words such as "believe," "expect," "anticipate," "plan," "intend," "estimate," "may," "will," "would," "could," "should" or other similar expressions. Additionally, all statements in this document, including forward-looking statements, speak only as of the date they are made, and the Company undertakes no obligation to update any statement in light of new information or future events.

The Company's ability to predict results or the actual effect of future plans or strategies is inherently uncertain. A number of factors, many of which are beyond the Company to control or predict, could have a material adverse effect on the operations and future prospects of the Company and its subsidiaries. These factors include, but are not limited to, the following:

- the effects of future economic, trade, business and market conditions and changes, both domestic and foreign, including the effects of federal trade policies;
- governmental monetary and fiscal policies;
- the timing and scope of any legislative and regulatory changes, including changes in banking, securities and tax laws and regulations and their application by our regulators;
- the risks of changes in interest rates on the levels, composition and costs of deposits, loan demand, and the values and liquidity of loan collateral, securities and other interest sensitive assets and liabilities;
- changes in borrowers' credit risks and payment behaviors;
- changes in the availability and cost of credit and capital in the financial markets;
- the effects of disruption and volatility in capital markets on the value of our investment portfolio;
- cyber-security risks and or cyber-security damage that could result from attacks on the Company's or third party service providers networks or data of the Company;
- changes in the prices, values and sales volumes of residential and commercial real estate;
- the effects of competition from a wide variety of local, regional, national and other providers of financial, investment and insurance services;
- changes in technology or products that may be more difficult or costly, or less effective than anticipated;
- the effects of war or other conflicts, acts of terrorism or other catastrophic events, including storms, droughts, tornados and flooding, that may affect general economic conditions, including agricultural production and demand and prices for agricultural goods and land used for agricultural purposes, generally and in our markets;
- the failure of assumptions and estimates used in our reviews of our loan portfolio, underlying the establishment of reserves for possible loan losses, our analysis of our capital position and other estimates;
- changes in the scope and cost of FDIC insurance, the state of Indiana's Public Deposit Insurance Fund and other coverages;
- the effects of the Tax Cuts and Jobs Act of 2017, including any effects on the housing market, and on the demand for home equity loans and other loan products that we offer;
- changes in accounting policies, rules and practices; and
- the risks of mergers, acquisitions and divestitures, including, without limitation, the related time and costs of implementing such transactions, integrating operations as part of these transactions and possible failures to achieve expected gains, revenue growth and/or expense savings from such transactions.

These risks and uncertainties should be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. Additional information concerning the Company and its business, including additional factors that could materially affect the Company's financial results, is included in the Company's filings with the Securities and Exchange Commission, including the Company's Annual Report on Form 10-K.

ITEM 3 – QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Interest rate risk represents the Company's primary market risk exposure. The Company does not have a material exposure to foreign currency exchange risk, does not have any material amount of derivative financial instruments and does not maintain a trading portfolio. The Corporate Risk Committee of the Board of Directors annually reviews and approves the policy used to manage interest rate risk. The policy was last reviewed and approved in July 2018. The policy sets guidelines for balance sheet structure, which are designed to protect the Company from the impact that interest rate changes could have on net income but do not necessarily indicate the effect on future net interest income. The Company, through its Asset and Liability Committee, manages interest rate risk by monitoring the computer simulated earnings impact of various rate scenarios and general market conditions. The Company then modifies its long-term risk parameters by attempting to generate the types of loans, investments, and deposits that currently fit the Company's needs, as determined by its Asset and Liability Committee. This computer simulation analysis measures the net interest income impact of various interest rate scenario changes during the next twelve months. The Company continually evaluates the assumptions used in the model. The current balance sheet structure is considered to be within acceptable risk levels.

Interest rate scenarios for the base, falling 100 basis points, rising 25 basis points, rising 50 basis points, rising 100 basis points, rising 200 basis points and rising 300 basis points are listed below based upon the Company's rate sensitive assets and liabilities at September 30, 2018. The net interest income shown represents cumulative net interest income over a twelve-month time horizon. Balance sheet assumptions used for the base scenario are the same for the rising and falling simulations.

The base scenario is highly dependent on numerous assumptions embedded in the model. While the base sensitivity analysis incorporates management's best estimate of interest rate and balance sheet dynamics under various market rate movements, the actual behavior and resulting earnings impact will likely differ from that projected. For certain assets, the base simulation model captures the expected prepayment behavior under changing interest rate environments. Assumptions and methodologies regarding the interest rate or balance behavior of indeterminate maturity core deposit products, such as savings, money market, NOW and demand deposits reflect management's best estimate of expected future behavior.

(dollars in thousands)	Base	Falling (100 Basis Points)	Rising (25 Basis Points)	Rising (50 Basis Points)	Rising (100 Basis Points)	Rising (200 Basis Points)	Rising (300 Basis Points)
Net interest income	\$158,006	\$146,425	\$159,588	\$161,805	\$166,185	\$174,913	\$183,572
Variance from Base		(\$11,581)	\$1,582	\$3,799	\$8,179	\$16,907	\$25,566
Percent of change from Base		-7.33%	1.00%	2.40%	5.18%	10.70%	16.18%

ITEM 4 – CONTROLS AND PROCEDURES

As required by Rules 13a-15(b) and 15d-15(b) under the Securities Exchange Act of 1934, management has evaluated, with the participation of the Company's Chief Executive Officer and Chief Financial Officer, the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on this evaluation, the Company's Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures (as defined in Securities Exchange Act Rules 13a-15(e) and 15d-15(e)) were effective as of September 30, 2018. Disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in reports that it files or submits under the Securities Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. These disclosure controls and procedures include controls and procedures designed to ensure that information required to be disclosed by the Company in the reports that it files or submits under the Securities Exchange Act is accumulated and communicated to management, including the Company's Chief Executive Officer and Chief Financial Officer, or persons performing similar functions, as appropriate, to allow timely decisions regarding required disclosure.

During the quarter ended September 30, 2018, there were no changes to the Company's internal control over financial reporting that have materially affected or are reasonably likely to materially affect its internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal proceedings

There are no material pending legal proceedings to which the Company or its subsidiaries is a party other than ordinary routine litigation incidental to their respective businesses.

Item 1A. Risk Factors

There have been no material changes to the risk factors disclosed in Item 1A. of Part I of the Company's Form 10-K for the year ended December 31, 2017. Please refer to that section of the Company's Form 10-K for disclosures regarding the risks and uncertainties related to the Company's business.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table provides information as of September 30, 2018 with respect to shares of common stock repurchased by the Company during the quarter then ended:

ISSUER PURCHASES OF EQUITY SECURITIES

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number (or Appropriate Dollar Value) of Shares that May Yet Be Purchased Under the Plans or Programs
July 1-31	2,972	\$ 48.78	0	\$ 0
August 1-31	919	48.34	0	0
September 1-30	0	0	0	0
Total	3,891	\$ 48.68	0	\$ 0

- (a) The shares purchased during the periods were credited to the deferred share accounts of non-employee directors under the Company's directors' deferred compensation plan. These shares were purchased in the ordinary course of business and consistent with past practice.

Item 3. Defaults Upon Senior Securities

None

Item 4. Mine Safety Disclosures

N/A

Item 5. Other Information

None

Sarah J. Earls – Senior Vice President and Controller
(principal accounting officer)

I, David M. Findlay, Chief Executive Officer of Lakeland Financial Corporation, certify that:

1. I have reviewed this quarterly report on Form 10-Q of Lakeland Financial Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purpose in accordance with generally accepted accounting principles;
 - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures as of the end of the period covered by this report based on such evaluation; and
 - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting, and;
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
 - a) All significant deficiencies and material weaknesses in the design or operation of internal controls over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize, and report financial information; and
 - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
